

WELCOME HOME TO QUALITY AND STYLE

COMPOSITE DOORS

 **TruFrame**

Beautiful protection for your home

You shouldn't have to compromise on aesthetics, security or durability when it comes to your home's entrance. Our range of composite doors offer the perfect blend of style, resilience and functionality.

Our composite doors are meticulously crafted to redefine the standards of excellence, while providing an array of incredible benefits that are sure to enhance your living experience. We understand the need for a door that not only offers security but also enhances the aesthetic appeal of your home.

Our doors come in a wide range of designs, colours and finishes, allowing you to choose the perfect style that matches your home's unique character. Whether you prefer a traditional, contemporary, or designer look, we have the ideal door to complement your taste and elevate your home's kerb appeal.

Make an entrance

When it comes to design, security and energy efficiency, doesn't your home deserve the best?

Our engineered composite doors are the minimal-maintenance alternative to traditional door materials.

The high-definition woodgrain or smooth etched Glass Reinforced Plastic (GRP) outer skins will look stunning for years to come, delivering long-lasting kerb appeal to any property.

Our doors are constructed with Laminated Veneer Lumber (LVL) subframes, offering stability and strength as well as extra protection against water ingress.

The high density inner cores offer exceptional thermal efficiency and will help to reduce energy bills in comparison with any other door on the market.

Complement any home

With a wide range of traditional, rural, contemporary and designer styles, our elegant composite doors enhance any property.

KEY DETAILS

Durable and low maintenance

High security locking system

Insulating core

Environmentally friendly

Secured by Design (optional upgrade)

Design options

There is a comprehensive selection of styles across our range of composite doors.

Hardware options

From Pull Bar handles to Victorian knockers in a variety of colours, we have got everything you need to make your door stand out from the rest.

Glazing options

Each design offers something different to the overall look. There's a style to suit every type of home.

Highest security

Keep intruders at bay with a multi-point lock and cylinder, designed to withstand all attack methods.

ORiGINAL composite panel

Quality that endures...

Our composite construction delivers a door that won't warp, crack, or fade – just enduring beauty and dependable strength. Precision-built and expertly finished, our doors are designed to perform beautifully for years to come.

1 Edge trim

The long sides of the door are finished using a uPVC trim, to protect the edges from physical damage and general wear and tear.

2 Subframe

The Laminated Veneer Lumber (LVL) engineered subframe is cross-banded and has no knots, for improved strength and durability over conventional wood.

3 GRP skin

Thick GRP skins in either an authentic woodgrain or Links etched finish, the latter of which perfectly matches the look of aluminium.

4 PUR foam

High density Polyurethane foam core provides exceptional thermal insulation and sound deadening.

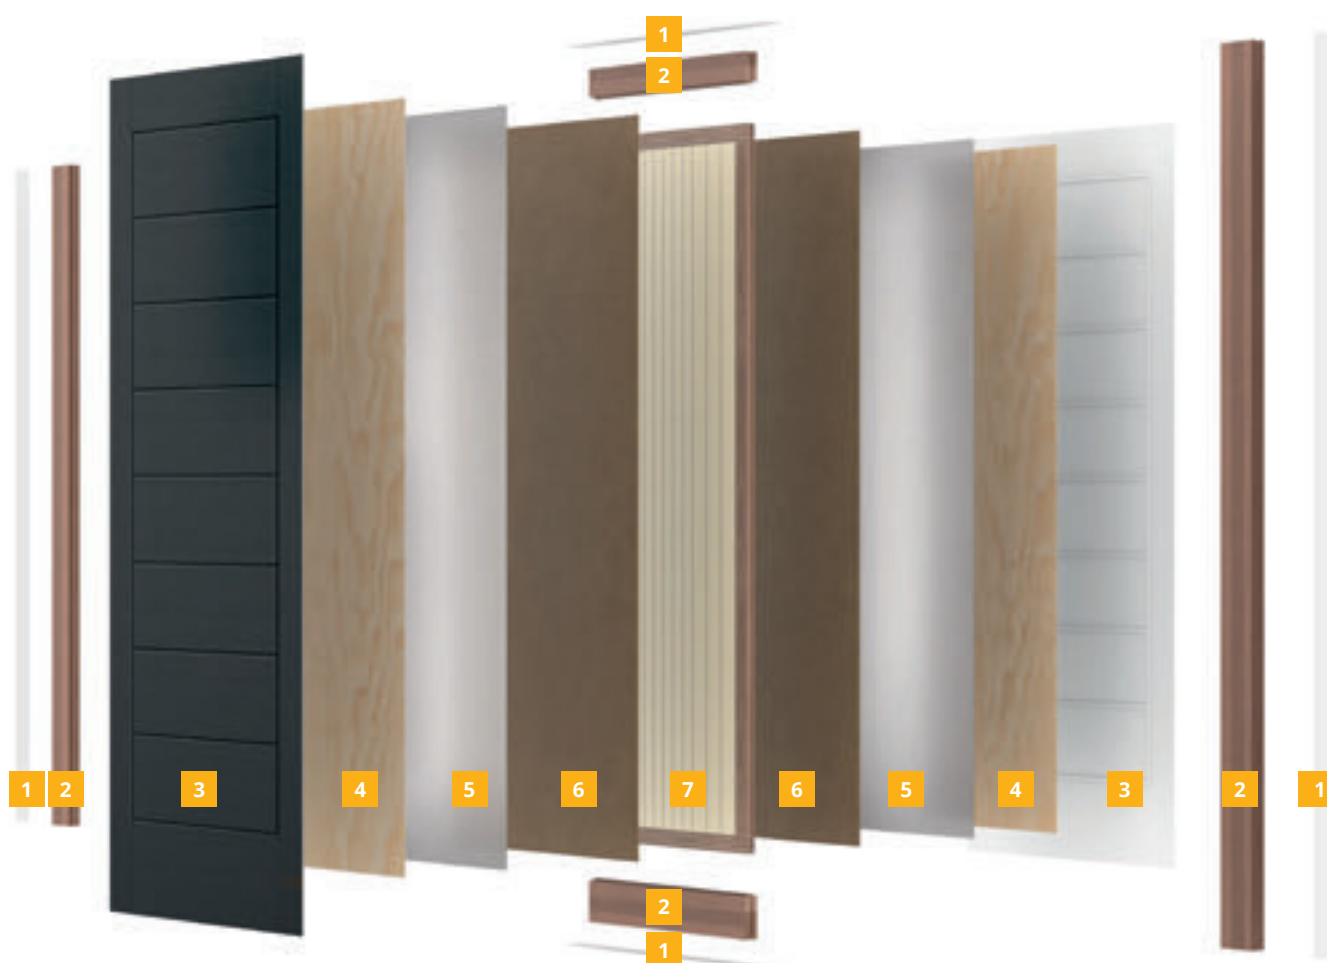

5 PVC

Extruded PVC section provides rigidity while also being a thick barrier to prevent water ingress

GRiPCORE composite panel

...throughout it's core

Our premium **GRiPCORE** composition is a first for the market, featuring a traditional foam core that is fitted with horizontal timber plinths for extra rigidity, housed between slim aluminium and plywood panels for additional stability and thermal efficiency.

1 Edge trim

All sides of the door are finished using a uPVC trim, to protect the edges from physical damage and general wear and tear.

2 Subframe

Encased LVL (Laminated Veneer Lumber) and engineered hardwood stiles and rails for stability and protection against water ingress.

3 GRP skin

The GRP skins are pressed onto the core with a unique method to ensure flawless correlation with the core.

4 Plywood sheet

Additional sheet of exterior grade plywood for door support under the GRP skin.

5 Aluminium sheet

This is a vital layer within the door construction, adding stability and protecting against moisture infiltration.

6 HDF sheets

This high-density product exceeds that of plywood providing brilliant rigidity and strength throughout.

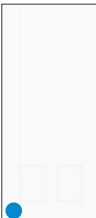

7 PIR foam

Providing superior thermal capabilities, than commonly used PUR foam. Timber framed for added strength and rigidity.

Door styles at a glance

From traditional to contemporary, cottage to designer, whichever door style you choose, it's guaranteed to bring enduring style to your property.

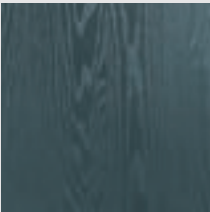

Our composite doors are available with a variety of glazing cassettes, allowing you to select the perfect style to complete your door. For more about the cassette types, see page 80.

* Also available with Flat Grain Cassettes

Endless possibilities

Our door glazing cassette system with a revolutionary Foam in Place technology, delivers a superior seal and aesthetic never seen before. Choose from one of three options to suit any style of door from contemporary to traditional.

Standard Cassette

The traditional choice with a moulded design and a woodgrain finish to suit a more conventional door design.

Flat Grained Cassette

Be eclectic by combining a woodgrain finish with a modern squared-off flat profile that compliments a contemporary door design.

Flat Stipple Cassette

The modern one, with a squared-off flat profile and smooth stippled finish that perfectly matches our Links, aluminium-effect composite door.

European style

Inox glazed doors combine high performance with beautiful stainless steel aesthetics to give a truly designer look to any entrance.

Inspirational, beautiful and the ultimate in style

Our collection of decorative door glass has been created to provide you with a wealth of choice to enhance your composite door, and create a first impression that speaks volumes.

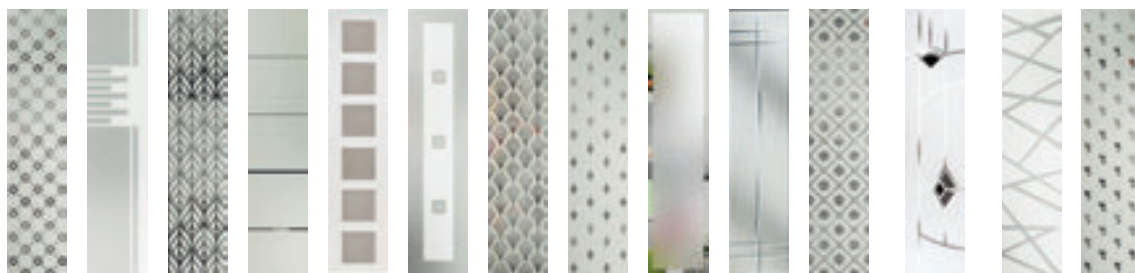

While every effort is made to make the glazing appear as true to life as possible, these images are for illustrative purposes and the final product may differ due to the manufacturing process and real-world lighting conditions.

Complete peace of mind

Keep your home and family fully protected.

The security of your home is of paramount importance to us, which is why we use the most secure multipoint locking systems on all our doors as standard, providing your home with the protection it deserves.

Locking systems

Lever operated

Doors specified with a lever/lever and lever/pad handle are supplied with a 5 hook multi-point door lock as standard.

Twin hook locking points provide next-generation enhanced security and are engaged when the handle lever is lifted and then the door is simply locked/unlocked by using the key.

Slam operated

This high-performance, multi-point slam lock is generally used in conjunction with 'Pull' handles.

The mechanical self-locking system ensures that the door is securely locked against uninvited entry when simply pulled shut. From outside, the latchbolts are retracted and the door opened by a simple turn of the key.

Heritage slam operated

The Heritage slam lock will help you achieve a classic door appearance, which is both secure and functional.

The Heritage slam lock works in a similar way to the slam lock, although the lock is positioned higher up the door. Simply by closing the door, the top and bottom latches strike the keep and fully engage to become secure deadbolts.

1 Pre-compression Roller

Ensures smooth operation and maximises weather proofing.

2

Anti-lift Pins

Slots into the frame to prevent the door from being moved or lifted.

3

Centre latch and hook

A combined central latch and anti-separation hook create a solid and rigid locking point.

4

Claw hooks

Grips the door sash to the frame for extra strength and solidity.

High security

Awarded the Police 'Secured by Design' accreditation, our multipoint locks have been rigorously tested to the very highest security standards.

British built

Production, testing and assembly of all our door locking systems, are carried out in the UK.

Intelligent locking

Intelligent, compact and robust locks, which work perfectly with the design of our windows and doors.

10 year guarantee

The multipoint locking system comes with a 10 year guarantee as standard, providing complete peace of mind.

The finishing touch

Once you've chosen the design of your door, you can exercise your creativity with a huge choice of colour, finish and styling for your door hardware, security and accessories.

Make a statement with a wide choice of handles, letterplates, knockers and spyholes.

A break from tradition

Unlike traditional cylinders, the BreakSafe has been designed to allow a section of the cylinder to “break away” in the event of a snapping attack. Giving you additional peace of mind, at no extra cost.

Perfectly flush

The BreakSafe cylinder face finishes much closer to the handle backplate, providing even greater protection from attack.

Polished finish

A variety of options are available including ergonomic thumbturn, in two high quality finishes - polished chrome and polished brass.

The highest level of protection

The patented locking cam system of the ATK lock is proven in the market to effectively combat against lock snapping and forced entry methods of attack.

Sold Secure Diamond

ATK has the Master Locksmith Association's highest rating - SS312 Sold Secure Diamond, TS007 3 star rating, British Kitemark and Secured by Design accreditations.

Finishing touch

Dual colour polished Chrome/Brass or Matt Brass options available, including ergonomic thumbturn variants.

The perfect profile

Our system has an absolute commitment to ensuring each and every one of its frames provides exceptional advantages over traditional uPVC alternatives.

Why we choose Liniar

Our frames are designed and manufactured using innovative methods and materials, ensuring you're covered against warping, splitting and discolouration for a minimum of 10 years.

10 Year Guarantee

All frames come with a 10 year guarantee from the date of installation. You can rest assured that our products are built to last.

Thermal Efficiency

Our doors systems deliver superior thermal and energy efficiency, potentially achieving a U-value as low as 1.6 W/m²k.

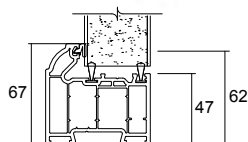

Environmentally Friendly

All our products are guaranteed 100% lead-free. Choosing Liniar reduces your environmental impact.

Bridging the gap

Door thresholds may go unnoticed, but play a crucial role in ensuring easy of access to your home. Thoughtfully designed gaskets ensures that our thresholds do not compromise weather sealing ability.

External height: 67mm
Internal height: 47mm

uPVC Frame

Our standard threshold option, which also provides excellent thermal efficiency. This is generally used where the internal floor is raised or when a thicker flooring, such as carpet, is used.

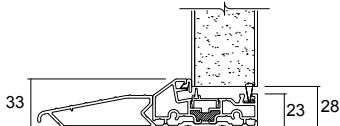

External height: 15mm
Internal height: 10mm

Aluminium 'Part M'

With an integrated external ramp and maximum height of 15mm, this threshold option provides a simple solution for wheelchair access.

External height: 30mm
Internal height: 20mm

Max. External height: 33mm
Internal height: 23mm

Max. External height: 33mm
Internal height: 23mm

Aluminium Low Threshold + Half or Full Tray Options

At less than half the height of the uPVC frame, the aluminium low threshold offers a strong and premium solution for your door. This threshold is compatible with both aluminium full and half trays, enabling support for wheelchair access and users with specific mobility needs.

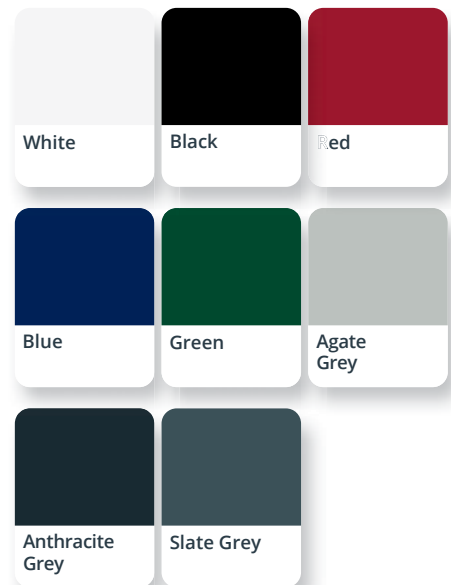

Note: Requirements would typically be determined by a surveyor.

Open up a world of colour

To ensure the perfect match, all our doors and frames are available in a wide choice of colours.

With nine standard colours and over 60 premium colours, not to mention the limitless possibility with RAL® and Farrow & Ball® colours as an optional extra, creating the look you want has never been easier.

Standard

Stained Woodgrain

Stained PATiNA

Dual colour

Choose different external and internal colours, for a truly unique look!

Door colours shown in this brochure should be used for guidance only. We have made every effort to match the colour and stain you see in the brochure, so it's as close as possible to our paint when applied to the doors. Due to the nature of the product it is applied to there is sometimes a difference between them, which unfortunately we cannot avoid. The colour, intensity and sheen level may differ from the paper print version and we do not accept any liability for this for any reason. Longer lead times are required with premium colours. All doors come with white interior as standard.

Because it's not just any door, it's your door.

Unlock the power of personalisation with our leading-edge Door Visualiser. Mix and match colours, glazing, and hardware to create a look that's uniquely yours, because the right door doesn't just open your home, it reflects who you are.

Our Door Visualiser lets you explore endless possibilities with ease. You can mix and match exterior, frame, and interior colours to suit your vision. Our Door Visualiser makes it easy to experiment and find the combination that feels just right.

The visualiser tool allows you to see the subtle light diffusion and reflection in the glass of a range of glazing styles, from classic frosted textures to intricate leaded designs.

Choose your hardware options in a variety of finishes, including lever handles, pull bars and escutcheons, along with matching letterplates, numerals, and knockers - each crafted to complement your chosen style and colour. These final touches ensure your door is not only functional, but a refined statement piece from every angle.

Turn your home into a show room

Our advanced tool lets you overlay your custom door onto your existing entrance, giving you a realistic preview before making any decisions. You can even adjust design choices in real time - tweaking colors, glass, hardware, and more - so you can compare options instantly and feel completely confident in your final selection.

Scan the QR code below to use our bespoke configuration tool and create your perfect door.

The mark of quality

With TruFrame as our partners, you can have complete confidence in placing your trust with us. We have an excellent local reputation for the quality and value for money we provide to all our customers, old and new.
